

Tea Time Training is proud to announce the preview of the *Welcome to Marseille Board Game*. Experience the debut of the game and meet the creator.

TeaTime Training is a dynamic not for profit organization created by a local « Marseillaise » based in Marseilles at La Boate.

Our organization is driven by two objectives :

- to interact with the French community and help French people improve their self-confidence in English-based communication
- to create and develop original and innovative tools to enrich the cultural experience of visitors to the area, business persons and tourists alike

Welcome to Marseille is the brainchild of this cross-cultural philosophy, with a direct focus on linking local culture and businesses with those travelling to Marseille.

As part of our first project in the public venue, we are pleased to present to you a preview of the *Welcome to Marseille* board game, in English.

Discover the board, answer sample questions, learn how to play, meet the creator and find out when and where it will be available while enjoying a glass of wine and some delicious *mise en bouche*.
